ANTHONY NOLAN

**TITLE: ENVIRONMENTAL SUSTAINABILITY POLICY
STATEMENT OF INTENT**

Author: Environment and Sustainability Lead
Owner: Chief Executive Officer

Date Published: 22 March 2023

Version: 1

Date of next review: March 2024

STATEMENT OF INTENT

In line with UK law and legislation set out within the related legislation section below, it is Anthony Nolan's intention to take all practicable steps to reduce its environmental impact, reach carbon neutral by 2050 and ensure the sustainability of Anthony Nolan for generations to come. This will be achieved by:

1. Senior management considering and embedding environmental sustainability thinking into decision making and project planning
2. The implementation of an Environmental and Sustainability Management System, which involves creation of a strategy, supporting policy, and establishing baseline data for reporting
3. The provision of information, training, and supervision to employees, volunteers and trustees to ensure their compliance and active involvement in reaching targets and commitments
4. Educating employees, volunteers and trustees on the importance of reducing their environmental impact at home
5. Collecting supplier environmental policies and reviewing new tenders to reduce the environmental impact of Anthony Nolan's supply chain
6. Minimising toxic emissions through the selection and use of its fleet and the source of its power requirement, including making the car fleet electric by 2024
7. Actively promoting reduction, reuse, and recycling internally and working with customers and suppliers to encourage similar action
8. Promoting and encouraging involvement of Anthony Nolan in local environmental initiatives/schemes
9. Complying with environmental legislation and embedding good practices.

All employees, volunteers, and trustees are expected to support Anthony Nolan in reaching its goals, objectives, and commitments, and engage with the policies and procedures

developed to reduce Anthony Nolan's environment impact and ensure legal compliance. This statement will sit alongside the full Environmental Sustainability Policy which employees, volunteers and trustees will be required to read.

RESPONSIBILITIES

Overall, and final responsibility for Environmental Sustainability is held by the Board of Trustees. Responsibilities have been delegated, in part, to Chief Executive, Chiefs, Directors, and Line Managers. The formulation of the Environmental Sustainability Policy, guidance and monitoring of progress has been delegated to the Environmental Sustainability Lead.

MONITORING & PERFORMANCE

Anthony Nolan has a dedicated employee group which meets monthly to monitor environmental issues and to feedback employee solutions to the Environmental Sustainability Lead. The Governance and Risk Committee has oversight of overall progress in this area, and the creation of policies, reporting and recommending to the Board as appropriate. Anthony Nolan reports on energy and carbon and other environmental legal requirements bi-annually to the Strategic Leadership Team; and annually to the Audit and Finance Committee and the Board. Anthony Nolan carries out Energy Savings Opportunity Scheme (ESOS) assessments every 4 years which are reported to the Strategic Leadership Team, the Audit and Finance Committee, and the Board.
