

Medical Guidelines

Please use this link to access the online
version of the Medical Guidelines

The Anthony Nolan Medical and Lifestyle Guidelines are put in place to ensure the safety of both our stem cell donors and the recipients of their donations.

The guidelines are available online at
www.med-guidelines.org.uk

Please use this guide if a potential donor has a question about whether they are eligible to join based on any health conditions stated.

We are no longer using the Medical Guideline booklets at events

For any questions, please contact the Register Services team on 0207 424 6567 or email donor.support@anthonymolan.org
