

# Track your lifesaving progress

Every pound you raise helps our lifesaving work.

**£40** could fund a new potential lifesaver being added to our stem cell register.

**£400** could help a patient or family member attend a course of counselling sessions to help them with the challenges of a stem cell treatment.

**£1,300** could cover the freezing and storage of donated cord stem cells so they're ready for a patient when needed.
