

WITHOUT YOUR SUPPORT THERE IS NO CURE

Johnny, with his wife, after his stem cell transplant

For Johnny, and many others like him, a stem cell transplant was the only way to cure his blood cancer.

Anthony Nolan is the charity that makes lifesaving connections between people with blood cancer and incredible strangers ready to donate their stem cells.

But right now, we can't find the best matching donor for every person who needs one.

It takes just £40 to add another potential lifesaver to our stem cell register. This means that you can help grow the number of donors who are ready and waiting to save lives. Without you, there is no cure.

Sign up to Payroll Giving today - it's simple, tax-efficient, and could **save the lives of blood cancer patients in desperate need.**

Over a year, that's enough to add three potential donors to our register, who could each provide a lifesaving match to someone with blood cancer.
